Height - 33,7 cm

Important – Please read these instructions fully before starting assembly

If you need help or have damaged or missing parts, call the **Customer Helpline:** 0844 8008475

Instructions for use

IMPORTANT, READ CAREFULLY - RETAIN FOR FUTURE REFERENCE

• Do not use the drawer if any structural part is broken or missing.

• Periodically tighten all screws and load-bearing connecting parts to ensure permanent stability.

•Warning: Do not place this drawer near heat sources, windows and other furniture.

Before Starting Assembly

• Check you have all the components and tools listed on page 3 and 4.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Make sure you have enough space to lay out the parts before starting.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor.

• We do not recommend the use of power drills/drivers **for inserting screws**, as this could damage the unit. Only use hand screwdrivers.

• Dispose of all packaging carefully and responsibly.

Care and maintenance

• Only clean using a damp cloth and mind detergent, do not use bleach or abrasive cleaners.

• Regularly check that there are no loose screws on this unit and retighten when necessary.

Parts of your product are produced from solid pine which is a natural product containing a beautiful wooden structure.
Direct sunlight can speed up the natural process of the resin contained in the pine knots to change colour around knots.
This is a normal process happening to natural wood and cannot be seen as a manufacturers fault. All wood has been dryed to Industry standards for furniture timber and all procedures for obtaining the best lacquring finish have been followed.

Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources as radiators or fire. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage such as warping.

Glue safety - Take care when using glue, please follow the advice below

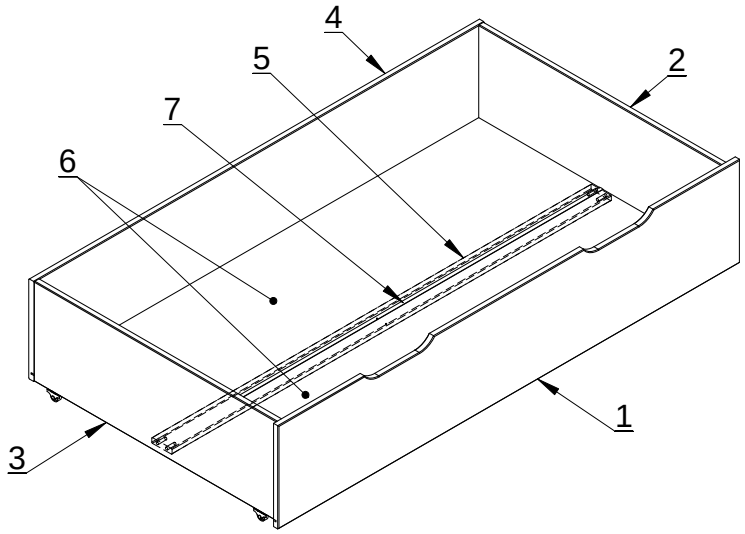
Skin contact: Remove contamination by washing with soap and water. This procedure should also be followed prior to eating and drinking.

Eye contact: Rinse immediately with clean water for 15 minutes and seek medical advice.

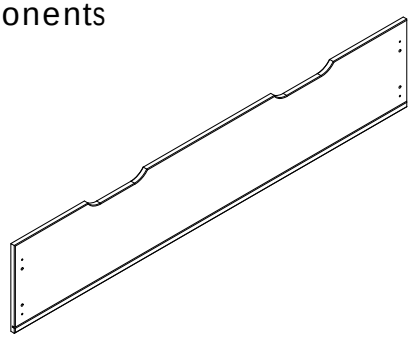
If swallowed: Seek medical advice immediately.

Components - Panels

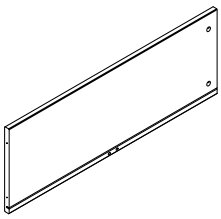
Please check you have all the panels listed below



Components



1 Front panel x1
(160x31x1,8 cm)



2 Side panel x1
(84,8x30x1,8 cm)
